MFG Carrier HQ — Pricing & Billing Terms

Usage-based platform fee on gross line haul · $0 per dispatcher seat · no monthly, no contract · effective on approval

TIERED PLATFORM FEE (per load, gross line haul)

MICRO TIER	GROWTH TIER	ENTERPRISE TIER
1.2%	**0.8%**	**0.5%**
1–3 active trucks · $90.00 on a $7,500 we	4–10 active trucks · $60.00 on a $7,500 w	11+ active trucks · $37.50 on a $7,500 week

FOUNDING CARRIER OFFER — EARLY ADOPTER INCENTIVE

Limited strictly to the first 10 approved carriers: fee permanently locked at 0.6% for life — bypassing the 1.2% Micro Tier even with one truck. Assigned automatically on approval · 10 of 10 seats still open.

HARD RULES & BILLING TRIGGERS

- **Fee lock trigger —** the billed percentage locks the instant a driver or dispatcher marks the load Picked Up / Loaded / In Transit. The tier in force at that moment applies to that load.
- **Pre-pickup cancellations —** $0. Drafts, dispatched-but-not-picked-up loads and loads cancelled before pickup are never billed.
- **Weekly minimum —** $35 per week for each truck that moved at least one load in the Monday–Sunday cycle.
- **Idle trucks —** $0. A truck that moved zero loads in the cycle is not billed at all — no cap on the upside, no charge on the downside.
- **Accessorial protection (on by default) —** the fee is calculated strictly on the flat rate / line haul. Fuel surcharge, detention, lumper, TONU and every other accessorial stay 100% with the carrier. The carrier owner may switch this off.
- **Invoice & charge —** invoice generated every Monday 12:00 AM ET for the prior week (PDF on MFG letterhead, one line per load) · auto-charged Monday 3:00 AM ET to the corporate card on file via Stripe · receipt emailed on approval · declined cards get a 6:00 AM notice and 72 hours before services pause; they resume automatically on payment.

BUNDLED SOFTWARE FEATURES

- **Unlimited seats —** always $0 per dispatcher. Invite the whole office by company email.
- **Included —** rate-con parsing, load build & dispatch texts, driver trip cards, two-way driver inbox, POD → invoice + remittance packet to factor or accountant, carrier packet, broker directory, live map, Diesel Radar, MFG load board, dispatcher coverage hand-off, owner analytics.
- **MFG Driver App add-on — $5.00 per active truck per week —** live GPS tracking, dispatcher-to-cab chat and instant POD upload. The carrier applies from Billing inside the workspace; Montana Freight Group activates it. Billed as its own statement line; $0 for idle trucks.

Rates are read live from the billing system at generation time and apply to usage after approval. Montana Freight Group · montanafreightgroup.com/hq · Powered by Montana Freight Group software
